A proposal to bring HiPATH to your school

Dear Principal,

Thank you for your interest in HiPATH. This proposal sets out how your school can bring a proven, research-based way of teaching to every classroom — for the same cost you already spend on books, assessments and training. Overall, you receive more, for the same outlay.

HiPATH is education made by educators, for educators. It is grounded in a Harvard-evaluated randomised controlled trial and proven across 30,000 schools in 8 countries. Teachers are supported at every step through the CAR+R coaching; children learn in pairs, so no one is left behind. And because every child you enrol helps ten government-school children learn foundational skills, choosing HiPATH is also a choice for a social cause. Inside you'll find three plans — Core, Growth and Ecosystem — the evidence, the costs, and a simple order form. We would be glad to walk your leadership team through it and tailor it to your school.

Warm regards,

Dr. Sunita Gandhi

Meet **Hi PATH.**

Two decades of research, distilled into one joyful classroom experience – where every child learns together, every single day

Hi PATH = ALfa × PATH — an **Accelerating Learning** for **All** pedagogy, delivered as **Purposeful, Active, Transformative, Holistic** education. In place of heavy textbooks, children learn in pairs from light, visual Buddy Books — building academics, confidence, and character together.

Child-led & paired.

Buddy Books replace heavy textbooks; children learn together, never alone.

Holistic by design.

Panchkoshas, SEL, STEAM & Inclusion nurture body, energy, mind, intellect, and joy.

Proven & measured.

Twenty years of research and six ipsative assessments a year, with results on instant dashboards.

One system for all.

Students, teachers, and parents grow together, every single day.

What Distinguishes GETI?

GETI is one of the very few
organizations founded

by educators for educators for social change.

Supports its offering with evidence, and provides third-party evaluation of its program's efficacy.

Directs its funds not to private profit but to social good.

Currently, GETI affiliates are supporting FLN at 10,000 government schools pan India, and One Tara Free Schools for out-of-school children.

is an education model developed in India, now expanding globally. It is currently in 12 countries, with eight actively pursuing its work.

Presently, GETI is in 12 countries, with eight countries actively pursuing its work at the moment.

Was not made yesterday. It is based on 20 years of research.

It has been tried and tested in classrooms across 10,000 schools, including government, budget, and elite private schools.

Not Just Books. A Movement.

ALfA pedagogy is also being used to dramatically improve FLN (Foundational Literacy & Numeracy) skills in ten thousand government schools, with non-financial MOUs for 35,000. Proceeds from Hi PATH fund these initiatives and the One Tara Free Schools. Start your own One Tara Center in memory of a loved one.
