

CREDO WORLD SCHOOL:

Rating 10/10

NAME - APAROOPA MUKHOPADHYAY

CLASS - NURSERY 'B'

Alfa Pedagogy is a much needed change that was needed for the learning to be fun, engaging & exciting for the students. I really look forward to taking this up in my class. With the constant guidance of MS. Sumita Bhatt & Riya Gupta Ma'am, I am feeling much confident to try this in my classroom.

- This pedagogy focuses on concept rather than just memorization. It helps to clear concepts of children from the very young age & make them confident learners. It is inclusive in nature & promotes positive criticism rather than the old method of directly making the student feel, he or she is not right. In Alfa it gives the child the chance to try again and be motivated.

- Alfa focuses on activity based learning.
- The role of teachers as galvanizers is also very important.
- As this pedagogy is new for me, I would appreciate a real time support to help in situations which may arise during teaching.
