

Dolly Singh
Nursery "A"

Creeds World School "Dhanbad"

My Self Dolly Singh, I attended 2 days Alfa training at our school by Sumita ma'am and Ria Ma'am. They have taken the whole session very smoothly. Before attending this session

I was really confused and little upset that what Alfa is doing with children, like for eg:-

→ (Alfa) here we don't start with Capital letters but ~~we~~ ~~throughout~~ we throughout our teaching period we have taught or started with Capital letter Pattern Writing. But now after completing session I am satisfied and came to know a new technique of teaching learning. Like from → known to unknown
→ Kinesthetic to concrete to Abstract.

→ I enjoyed this session and find it helpful and more inclusive class room.

→ Boosting students confidence where there is no judgement

→ Every student gets chance.

→ It is totally based on child centered & child psychology.

→ Teacher student interaction, student - student interaction,

→ Parent - student (child) interaction, every aspect is been kept in mind.

→ LSRW is the best way to make student understand

→ I gave 10/10 to this Alfa
