Review of 18 trainees

Thank you ALFA FLN for providing us
wonderful pedagogy.

- It makes us equipped and confident
the level of our learners. We have learnt the
methodology where learners will be learning,
understanding well and creating through their
own ideas. As ALFA is very interesting our learners
will be participating willingly and learning at their
full potential.
- Books ~~reduces~~ reduces their bag ~~bug~~ burden.
- Contents we have seen are very interesting that
attracts towards it.
- This pedagogy provides best methodology of
teaching numeracy where all can understand
the numbers with their quantity. When children
understand from concrete to abstract they actually
understand the numbers and operations.

I would like to rate Ms. Sumita Bhatt &
Riya Bhatt Gupta
